## NINE COUNTRIES ATTEND PROGRAM REVIEW IN NOUAKCHOTT

All of the endemic francophone countries except Cameroon attended the Program Nouakchott, Mauritania, on October 27-31. The Mauritanian ministers of health are represented the Government of Mauritania at the Opening Ceremony, which was also General A.T. Touré.	nd water supply
<u>Mali</u>	

in 1995). This is five times the number of cases that had been reported by Mauritania for 1996 up to just before the Program Review. The significant increase was due to delayed reports from Assaba, Guidimaka, and Gorgol, the three highest endemic areas of the country. The Government of Japan was agreed to help put 200 wells in the three
